

Village of Ballston Spa

Department of Public Works

Bulk leaf pick-up – Fall 2021

The bulk leaf pick-up in the Village began on November 2, 2021 and will continue until approximately the end of the month. This is a time-consuming operation that requires over half of the departments employees to complete in the most efficient manner. The effort is also impacted by weather conditions and other work in the Village that must be completed. We ask you to be patient while we work through the project. Please do not co-mingle leaves with other yard debris as it could possibly damage our new \$62,000 leaf picker.

Click on the Leaf Pick Up Route tab for current progress. The DPW will provide update information each workday that shows where we finished that day. We hope that this will help you anticipate when we will be working in your area.

When the operation is running in the most efficient manner, it will involve 5 people. They will be working in the streets to remove the leaves from your curb area and get them into the trucks. People operating in the street will also be wearing hearing protection.

Please exercise a high level of caution when driving near their work area.

We want everybody to go home safe each day!

Thank you for your co-operation!
